Where & When

Tyagarah Airfield, Cnr. Pacific Hwy. & Grays Lane Byron Bay – 6km North of the Byron Bay turnoff.

The clubhouse is located at the end Old Brunswick Road

the gravel road to the left off Grays Lane. Tuesday, Thursday, Saturday & Sunday -

weather permitting.

What to Expect

Sit back & thrill as you take off in an amazing powered glider, then be enthralled at the awesome views over the Byron Coast.

When the engine is cut you fly like a bird, enjoying the freedom of a limitless sky.

These self-launching motor gliders embody the advantages of powered aircraft with the inherent safety of sailplanes & regularly soar the rugged ridges of Mt. Warning & the cliffs below the historic Byron Bay lighthouse. The flight commences with a ground briefing on powered gliders & the methods of control of the

aircraft, then it's time to climb on board with your pilot & get strapped in ready for take off.

Ultimate High

"Ultimate High" is approximately 60 minutes in duration. Take off & climb over the spectacular Main Arm Valley towards Mt. Warning. Enjoy the views of the coastline from Byron Bay all the way up to the Gold Coast. Look to the west & marvel at the beauty of the Nightcap & Border Ranges National Parks. After switching off the motor, glide back along the Coorabell Ridge, then over to Byron Bay to spot dolphins or whales & finally back to Tyagarah for your landing.

Other Information

For your added safety.

- You must be over 12 years of age & under 100kg. If you are under 18 you will require written parental consent
- You will be required to sign a waiver before your flight.
- You should wear comfortable clothing, loose fitting clothes & trainers.
- Bring hat & sunglasses, and don't forget your camera to record those great views.
- Adverse weather conditions may require your flight to be rescheduled. Check with the club on the day if you are in doubt.
